

**MIDWAY SEWER DISTRICT
RESOLUTION NO. 2026-14**

RESOLUTION MODIFYING DISTRICT RATE STRUCTURE

Background:

RCW 57.08.081 authorizes the Board of Commissioners to provide for District revenues by fixing rates and charges for the furnishing of sewer service within the District; and

The Board has determined that the current service charge rate for delinquent accounts is no longer sufficient to equitably apportion administrative costs incurred in managing overdue accounts; and

The Board has determined that initial administrative costs associated with managing accounts over eighteen months or greater than one thousand dollars past due averages \$300.00; and

To insure that charges are uniform among classes of rate-payers, the Board believes the administrative costs associated with overdue accounts be charged directly to the overdue accounts.

Resolution: NOW THEREFORE, BE IT RESOLVED, that the Board of Commissioners of Midway Sewer District approves the following action:

Section 5.20.015 Service Charges shall be amended as follows:

There shall be a standard \$300.00 service charge added to all accounts that are greater than one thousand dollars past due or delinquent for 540 days.

The code changes shall become effective immediately.

Adoption: ADOPTED at a regular meeting of the Board of Commissioners of Midway Sewer District on the 28th day of October 2026, the following Commissioners present and voting:

Commissioner
