

MIDWAY SEWER DISTRICT
RESOLUTION NO. 2024-07

RESOLUTION MODIFYING DISTRICT RATE STRUCTURE

Background:

RCW 57.08.081 authorizes the Board of Commissioners to provide for District revenues by fixing rates and charges for the furnishing of sewer service within the District; and

The Board has determined that the current service charge rate for delinquent accounts, which was established in 2002, is no longer sufficient to equitably apportion administrative costs incurred in managing overdue accounts; and

The Board has determined that administrative costs associated with managing accounts over eighteen months or greater than one thousand dollars past due averages \$250.00; and

To insure that charges are uniform among classes of rate-payers, the Board believes the administrative costs associated with managing overdue accounts should be charged directly to the overdue accounts.

Resolution: NOW THEREFORE, BE IT RESOLVED, that the Board of Commissioners of Midway Sewer District approves the following action:

Section 5.20.015 Service Charges shall be amended as follows:

There shall be a standard \$250.00 service charge added to all accounts that are greater than one thousand dollars past due or delinquent for 540 days.

The code changes shall become effective immediately.

Adoption: ADOPTED at a regular meeting of the Board of Commissioners of Midway Sewer District on the 8th day of May, 2024, the following Commissioners being present and voting:

Commissioner
