

**MIDWAY SEWER DISTRICT  
RESOLUTION NO. 2018-08**

**RESOLUTION DECLARING EMERGENCY**

**Background:** District staff have identified the following significant infrastructure failure:

On Thursday, May 31, 2018, at 9:30 a.m., District Senior Inspector, Brock Powell was notified by Cannan Dacus, Superintendent for CST that his subcontractor Versatile Drilling had hit a large un-located sewer main on the north side of his property located at 19035 International Boulevard. The damaged section of pipe is about 55 feet upstream of MH E6-60. The 21” concrete sewer main conveys the sewage of the Northeast portion of the sewer district. This is a critical piece of our infrastructure and must be protected and repaired immediately.

The above infrastructure is a critical element of the District’s sewage collection system, is in danger of imminent failure and such failure could jeopardize the health, safety and property of District residents.

**Resolution:** NOW THEREFORE, BE IT RESOLVED, that the Board of Commissioners of Midway Sewer District hereby declares an emergency and directs staff to undertake all necessary actions to expedite the repair or replacement of the failing infrastructure:

**Adoption:** ADOPTED at a regular meeting of the Board of Commissioners of Midway Sewer District on June 13, 2018, the following Commissioners being present and voting:
