

**MIDWAY SEWER DISTRICT  
RESOLUTION NO. 2018 -04**

**RESOLUTION AMENDING DISTRICT CODE**

**Background:** Various governmental entities within the boundaries of the District have decided to generate revenues by imposing franchise fees, utility taxes, rents and other charges on their citizens receipt of sewer services from the District. Such fees, taxes, rents and other charges are collected by the District and then paid to the government entity imposing the fee, tax, rent or other charge.

As the fees, taxes, rents and other charges are intended to be applied to District customers, the District has determined that it is necessary to directly pass such costs on to the customers as part of the billing process in a transparent manner that allows the Customer to understand who is assessing and receiving the fee, tax, rent or other charge.

**Resolution:** NOW THEREFORE, BE IT RESOLVED, that the Board of Commissioners of Midway Sewer District approves the following addition to the Midway Sewer District Code:

**A new section, Chapter 5.02.200 is added as follows:**

5.20.200 Franchise Fees, Utility Taxes, Rents and other Governmental Charges. Applicable franchise fees, utility taxes, right of way rents or other governmental charges on the services provided or on the facilities or equipment owned by the District shall be passed through to District customers. The fees, taxes, rents or other charges will be included on customer billings, in the amount assessed by the government entity receiving the fee, tax, rent or other charge and shall identify the governmental entity that is imposing and receiving the fee, tax, rent or other charge.

**Adoption:** ADOPTED at a regular meeting of the Board of Commissioners of Midway Sewer District on May 9, 2018 the following Commissioners being present and voting:

\_\_\_\_\_  
Commissioner
