

**MIDWAY SEWER DISTRICT
RESOLUTION NO. 2019-05**

RESOLUTION AMENDING DISTRICT CODE

Background: RCW 57.08.005 and RCW 57.08.081 establishes that the Board may establish rates charges and fees for providing sewer services.

The District has determined that the current manner in which it calculates and charges the general facilities charge for improvements on properties that previously paid a general facilities charge requires revision.

Resolution: NOW THEREFORE, BE IT RESOLVED, that the Board of Commissioners of Midway Sewer District approves the following additions to the Midway Sewer District Code:

Chapter 5.12.050 is hereby amended as follows:

5.12.050 Computing general facilities charge--Residential customer equivalent basic figure. One unit of the RCE for the GFC is set at \$4,000.00 for all sewer connections during 2019, based on an average of 750 cubic feet of water usage per month. One RCE shall be the GFC for a single family residence. Multiple residential units shall have a GFC of \$3,200.00 times the number of residential units. Non-residential properties, including all commercial and industrial properties, shall have a GFC based on the number of points for the improvements on, or to be constructed on, the property. Twenty points shall equal one RCE, which shall be the minimum GFC, and \$200.00 shall be added to the GFC for each point in excess of twenty points provided, however, that the minimum shall not apply to properties that have previously paid a GFC and additional improvements and connections on such properties shall pay an additional GFC based on the actual number of points related to the improvements and connections. The points for determining the GFC shall remain as set forth in Section 3 of Resolution 1995-25 and Section 5.12.050 of the Midway Sewer District Code. The points determining the GFC shall be determined from a schedule of fixtures, derived from the Uniform Plumbing Code, as follows:

<u>Schedule of Fixtures</u>	<u>Points</u>
Bathtubs	2
Bidets	2
Dental units or cuspidors	1
Drinking fountains	1
Floor drains	2
Interceptors for grease, oil, solids, etc.	3
Interceptors for sand, auto wash, etc.	6
Laundry tubs	2
Clothes washers	2
Receptors (floor sinks), indirect waste receptors for refrigerators, coffee urns, water stations, etc.	1
Receptors , indirect waste receptors for commercial sinks, dishwashers, air washers, etc.	3
Showers, single stall	2

Schedule of FixturesPoints

Showers, gang (per head)	1
Sinks, bar, residential	1
Sinks, bar, commercial	2
Sinks, commercial or industrial, schools etc., including dishwashers, wash-up sinks and wash fountains	3
Sinks, flushing rim, clinic	6
Sinks and/or dishwashers, residential	2
Sinks, service	3
Mobile home park traps (one for each trailer)	6
Urinals, pedestal, trap arm only	6
Urinals, stall	2
Urinals, wall	2
Wash basins (lavatories), single	1
Wash basins, in sets	2
Water closet, private installation, trap arm only	4
Water closet, public installation, trap arm only	6

Water discharged from fixtures not listed above shall be computed at their maximum monthly discharge rate and converted to RCEs. (Res. 2015-21: Res. 2014-12: Res. 2013-17: Res. 2012-21: Res. 2011-18: Res. 2010-12: Res. 2009-17: Res. 2008-16: Res. 2007-21: Res. 2006-20: Res. 2006-01: Res. 2002-15 § 3: Res. 2001-22 §3: Res. 2000-16 §3: Res. 2000-13 §1: Res. 1999-24 §3: Res. 1998-17 §3: Res. 1997-11 §3: Res. 1996-22 §3: Res. 1995-25 §3: Res. 1994-20 §3, 5: Res 1994-11 §5: Res 2019-05)

Adoption: ADOPTED at an open public meeting of the Board of Commissioners of Midway Sewer District on _____, 2019 the following Commissioners being present and voting:
